October 30, 2011

Calves eligible to register will be done at buyer's expense.

We will provide all information to register but the expense will be that of the buyer.

All calves have been vaccinated and wormed.

They have been broke to tie.

Calves are assumed to be sound and healthy when sold, so if there is a question in your mind about a particular calf's fitness, you might not want to bid.

Calves not picked up by November 14th, 2011 will be charged daily for feed.

If you would like to view the calves or have any questions please call
